A Word about Softdisk G-S...

Softdisk Publishing was established in 1981 when the first issue of **Softdisk**™ was mailed to 50 Apple® owners. Today **Softdisk** in both 5¼" and 3½" formats is sent to thousands of eager Apple users each month.

Our continued commitment to meet the needs of this large group of computer enthusiasts has resulted not only in regular monthly collections of quality software, but also in the birth of a new publication, **Softdisk G-S** which premiered at Applefest, in September, 1989.

This **Softdisk G-S Back Issue Catalog** allows you the opportunity to select only those past issues which contain specific programs you would like to own—whether games or utilities, tutorials or applications. The choice is yours!

Back issue catalogs are also available for our other monthly collections: **Softdisk** for the Apple II and Laser 128® family, **Loadstar**™ for the Commodore® 64/128, **Loadstar 128 Quarterly**™ for the Commodore 128, **Diskworld**™ for the Macintosh®, **Big Blue Disk**™ for the IBM®-PC and compatibles, and **PC BusinessDisk**™ for the business-oriented PC users.

If you would like one of these other back issue catalogs, you may request one when you call to place your order for **Softdisk G-S** back issues.
